***“Our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness that most frightens us. We ask ourselves, Who am I to be brilliant, gorgeous, talented, fabulous? Actually, who are you not to be? You are a child of God. Your playing small does not serve the world. There is nothing enlightened about shrinking so that other people won't feel insecure around you. We are all meant to shine, as children do. We were born to make manifest the glory of God that is within us. It's not just in some of us; it's in everyone. And as we let our own light shine, we unconsciously give other people permission to do the same. As we are liberated from our own fear, our presence automatically liberates others.”***

We, and all things in the universe, are non-locally connected with each other and with all other things in ways that are unfettered by the hitherto known limitations of space and time.” Ervin Laszlo, Ph.D*

## **The HTSO.....Who are we?**

Our organisation is made up of people like you who are dedicated to the transformation and evolution of human consciousness.

All members of the HTSO possess a desire to make a difference in their own lives and the lives of others.

We recognise that as human beings here on earth we are all facing our own challenges daily and that it is so easy to let our insecurities and fear hold us back. We are committed to making a difference, supporting each member, making it much easier to take the next step, whatever that step may be.

We respect each individual’s unique struggles and we respect the fundamental dignity and worth of all clients and students regardless of age, gender, race, sexual orientation, disability, social, political or religious beliefs and backgrounds.

**HTSO** was founded by Joanne McMillan B.Ed.

Joanne has been working as an intuitive teacher and holistic healing guide for many years. She has been working mainly in Ireland, North and South but also in places as far apart as Bulgaria and Australia with individuals and groups to transform lives.

More than 25 years ago Joanne, never having heard of Reiki or any other holistic therapy, found herself at the most challenging time in her life. She lost everything that seemed important at the time; home, husband, job, money, self-confidence and seemingly had no hope. With two very young children for whom she was the only support she started a long journey to transform her life.

*“The accumulative affect over the years of transforming my life step by step as I let go of all the fear, pain, guilt and remorse has been a move from the depths of despair to recognising within myself the truth that we are all Love and that Love is the only thing that matters.*

*I created the Holistic Teaching and Support Organisation as I want to share what I have learnt and ensure that as many people as possible benefit in the way I have from these amazing energies and more.*

*I believe passionately in bringing the highest possible frequencies into everything I do and this passion is what is behind every aspect of the HTSO.*

*I felt guided to set up the organisation to ensure that as many people as possible get the help they need to transform their lives empowering themselves by becoming successful individuals, therapists, teachers and business owners. Spiritual growth and transformation is the ongoing purpose and goal for students and teachers alike in the HTSO.”*

In the intervening years she has become a Master Teacher of many energy systems including Usui Reiki, Raku Kei Reiki, Seven Degree Reiki, Seichim, Tera Mai Seichim, Karuna Reiki® & Egyptian Sekhem. Joanne is also a fully trained Past Life Regression therapist, Family Constellations facilitator and a Transforming Cellular Memory teacher and facilitator.

She began using the amazing energies that had helped transform her life to help others. Joanne created a new Reiki system called **Psychic Reiki™** as a response to the number of students that found it really difficult to trust their intuition and recognise the Higher guidance they were receiving. As trust and the ability to perceive clearly is important this special energy system is of paramount importance to us all especially those of us in the business of helping to teach and guide others.

Joanne created HTSO to give people an opportunity to transform their lives and the lives of others, creating a structured and supportive organisation, enabling dreams to come to fruition and fears and blocks to be overcome.

**Paul Fieldhouse** is our business growth expert. He delivers the business programme and brings experience, knowledge and the disciplines of the commercial world to the HTSO and its members. Paul is an entrepreneur and experienced business leader and prior to setting up his own company Hyperion Growth he ran a successful business helping and guiding business owners and executives to grow their business and themselves to meet their goals and business aspirations.

He is also a director in a number of companies and has received a number of business awards. He has been the lead judge in the NI Young Entrepreneur of the Year awards, a Dragon for Belfast's own version of Dragons den and member of various business organisations.
